Introduction

The new season brings the change in ingredients, temperatures and colours that seem so distant when we write the Spring list. It's a time of real bounty, bold flavours and richer dishes. For these times, we turn to warmer reds, juicy reds perfect for game, wines to warm the spirit now the sun has moved on for a time.

This list reflects the ever-changing styles of wine available to us, including wines from new growers (Swerver) and new regions to us (Alta Alella). Rest assured though as we have ensured the retention of the classics we have come to know and love.

We have also extended the fine wine list with some amazing finds all at their peak for drinking now. Let us know if you would like to have a bottle opened and decanted.
